HOW DOES **PDPA** IMPACT YOUR COMPANY?

Personal Data Protection Act B.E. 2019 ("PDPA")

Aims at regaining the people's trust in the responsible treatment of their personal data to boost digital economic across our nation. According to the mentioned purpose, companies will face new data protection obligation. The legislator considered the challenges of a global economy, new technologies and new business models and therefore created a very wide scope of application that will affect numerous companies. As not only data protection duties but also the impending fine have been introduced, companies should carefully reorganize their internal data protection procedures in order to reach compliance with the PDPA.

WHY **D-PDPA** IS YOUR BEST CHOICE?

D-PDPA is a result of cooperation between high profile programmer team and data protection lawyers.

D-PDPA will help your company to process personal data in accordance with PDPA, and demonstrate company accountability. With centralizing feature, our platform enables your DPO and compliance to easily manage and monitor personal data processing activities from various channels over time. Thus, your risk in violation of PDPA will be significantly decreased.
